i700 Wood Fire

The i700 Freestanding Fireplace is the perfect combination of style, functionality, and affordability.

Designed for small to medium-sized rooms, this versatile fireplace creates a cozy ambiance while delivering exceptional heating performance.

With multiple configuration options and a sleek, elegant design, the i700 fits seamlessly into any home.

Key Features

- **Versatile Design Options**

Choose from three configurations to suit your style:

Freestanding: A minimalist and sleek look.

Logbox: Adds functionality with integrated firewood storage.

Pedestal: Elevates the fireplace, making it a stunning focal point.

- **Elegant and Functional Design**

Large Glass Door: Maximizes the fire's visibility, creating a warm and inviting atmosphere.

Concealed Handle: Maintains a streamlined appearance while offering easy operation.

- **Durable and Efficient Construction**

Steel Box: High-quality steel ensures strength and durability.

Ceramic Brick Lining: Enhances heat retention and protects the firebox.

Steel Baffle: Built to last, optimizing heat efficiency and performance.

- **Exceptional Heating Performance**

Radiant and Convection Heating: Combines radiant warmth with convection airflow to evenly heat your space.

Adjustable Air Control: Customize the fire's intensity to match your comfort needs and save on fuel.
