Denver Burners

BRINGING FIRE, DESIGN AND AMBIENCE TO LIFE

decoflame

Built-in Burners

Designed for seamless integration, Decoflame built-in burners bring the beauty of real fire into modern architecture. Clean bioethanol combustion, advanced control and refined design allow complete freedom when creating bespoke fireplace solutions.

Denver Burners

The Denver series features automatic bioethanol burners that combine elegant design, advanced technology and high safety standards. Designed to create a beautiful, living flame, the burners require neither chimney nor complex installation, making them easy to integrate into a wide range of interior environments.

With intelligent control and clean combustion free from smoke, soot and ash, Denver provides a flexible and contemporary solution for both private residences and professional projects. Available in a range of sizes, the series offers great design freedom for integrating fire seamlessly into modern architectural environments and bespoke fireplace designs.

F2
Denver F2 is an automatic bioethanol burner developed for built-in fireplace solutions. Available in three lengths – 520 mm, 720 mm and 1120 mm – it integrates easily into a wide range of fireplace designs. The centrally positioned control panel ensures intuitive operation and enables a long, continuous flame. With two adjustable flame levels, Denver F2 offers controlled heat output and creates a calm, elegant focal point in modern interiors.

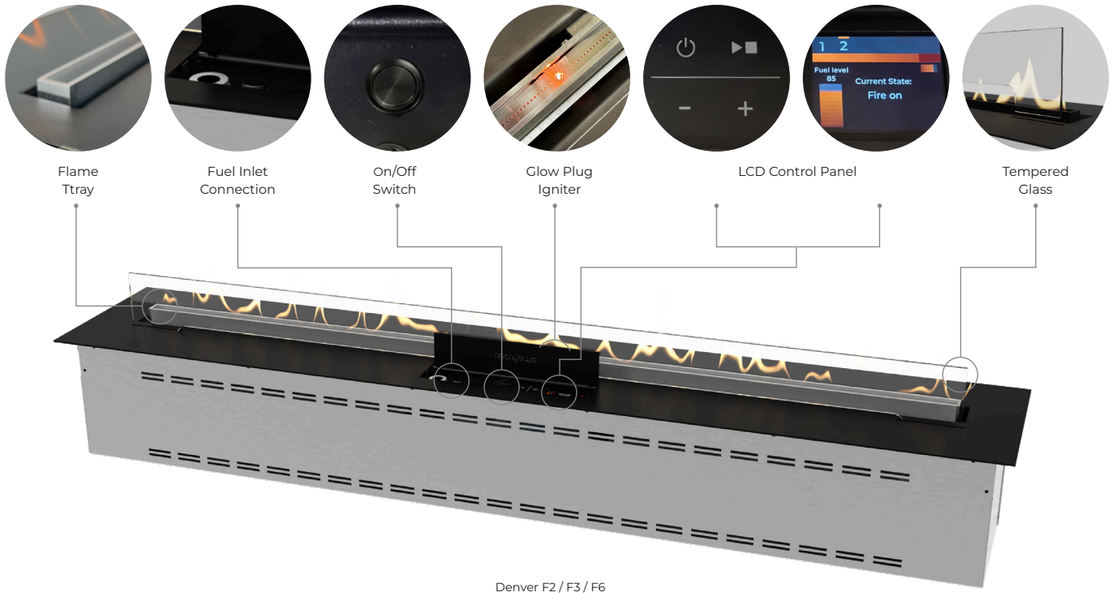

F3
Denver F3 is an automatic bioethanol burner developed for built-in fireplace solutions where enhanced flame control is desired. Available in several lengths, it integrates seamlessly into a wide range of fireplace designs. With three adjustable flame levels, Denver F3 allows the flame intensity to be adapted to the atmosphere of the space while creating a warm and refined focal point in modern interiors.

F6
Denver F6 is Decoflame's most advanced automatic bioethanol burner, developed for ambitious fireplace installations and architectural projects of any scale. Available in lengths ranging from 620 mm to 2520 mm, the burner offers exceptional flexibility when integrating fire into modern interior design.

Denver F6 combines innovative technology with refined aesthetics. Advanced features such as app control, Bluetooth connectivity, and intelligent safety systems ensure intuitive and reliable operation. The burner also supports Smart Home integration, allowing seamless connection to modern home automation systems.
Denver F6 delivers a seamless fireplace experience where technology, design, and atmosphere come together.

Glass Solutions

As an integral part of the design, glass solutions bring together function and aesthetics in one seamless experience. Carefully developed to create a calm, stable flame and a clean, refined visual expression, they also support safe and reliable operation. A range of configuration options offers the flexibility to tailor each solution to the desired design. Depending on the chosen aesthetic, the glass can be positioned either along the edge of the top plate (80 mm) or in front of the burner (65 mm).

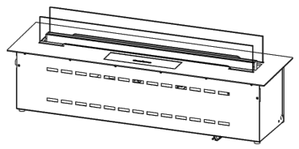

GLASS SOLUTION 1

1 glass in front of burner.

Hight: 65 mm

Thickness: 4 mm

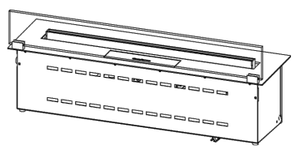

GLASS SOLUTION 2

2 glasses in front of burner.

Hight: 65 mm

Thickness: 4 mm

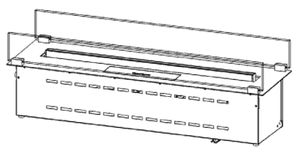

GLASS SOLUTION 3

1 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

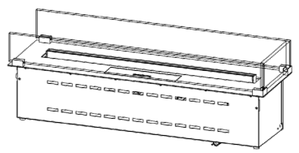

GLASS SOLUTION 4

2 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

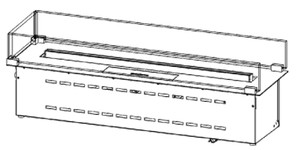

GLASS SOLUTION 5

3 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

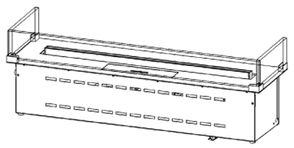

GLASS SOLUTION 6

3 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

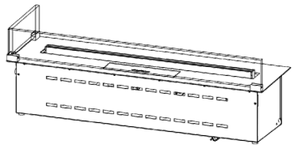

GLASS SOLUTION 7

3 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

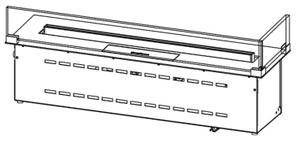

GLASS SOLUTION 8

2 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

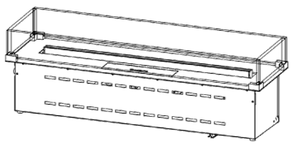

GLASS SOLUTION 9

2 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

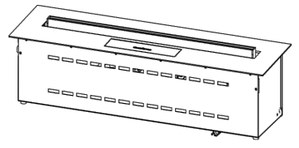

GLASS SOLUTION 10

4 glasses on top plate edge.

Hight: 80 mm

Thickness: 6-10 mm

NO GLASS

Burner without glass.

To achieve a stable and consistent flame, we strongly recommend using the burner with glass.

Burner Inspiration

Designed for seamless integration, Decoflame built-in burners bring the beauty of real fire into modern architecture. Clean bioethanol combustion, advanced control and refined design allow complete freedom when creating bespoke fireplace solutions.
