

Buller
Designed for the High Country

Designed especially for the Australian market, the Buller boasts one of the largest heating capacities in the Euro Fireplaces range. Inspired by traditional Australian wood stoves, the wide window and low profile modernises the classic designs people have come to expect from wood heaters. The two variants include a stylish pedestal stand, or a functional storage space. Despite the larger firebox size, the Buller maintains high efficiency and low emissions.

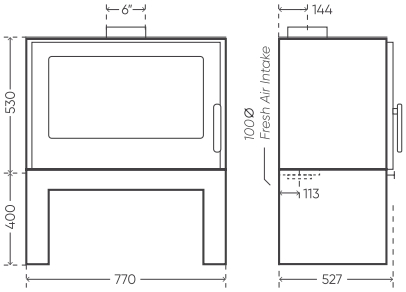

- 45cm Logs
- Optional Heat Bank
- Easy to remove ash tray
- Optional external air intake

Heating Capacity	Up to 280m²
Efficiency	Aus 61% / EU 76%
