Falun Group

Falun Ceramic
Heat Storage with Ceramic Tiles

Finished with heat absorbing tiles as well as the option of additional Heat Bank panels, the Falun Ceramic is one of Euro Fireplaces most popular heaters for heat storage. With a single sliding lever controlling both primary and secondary air intakes, the heater is designed to provide instant heat with powerful natural convection. Prolonged burning is achieved with slightly larger well-seasoned logs, giving the heater just enough airflow to burn long, clean and efficiently.

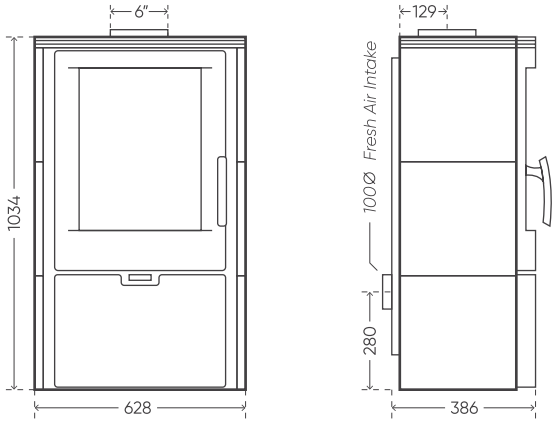

- 33cm Logs
- Easy to remove ash tray
- Optional Heat Bank
- Optional external air intake

Heating Capacity	Up to 240m²
Efficiency	Aus 73% / EU 82%
Emissions	1.5g/kg
Wood Usage	1.9kg/hr
Weight	136kg
H/W/D	1034/628/386

Heat Bank	10kg *Optional*
Ember Retention	6hr+
With Heat Bank	7hr+
Min Flue Length	**4m** *From Spigot*
Colour	

National Certificate of Compliance No; AHHA22-023
