Falun Group

Falun Serpentino
Heat Storage with Natural Soapstone

The Falun Serpentino utilises the material properties of Soapstone as a means to absorb and store heat for long periods of time. As well as looking stunning in its raw chiselled form, the dense stone blocks assists ember retention and continues to radiate heat for many hours after the fire has gone out. When connected, the fresh air intake makes the Falun Serpentino ideal for 6+ star rated buildings, and will quickly become the centrepiece of your home.

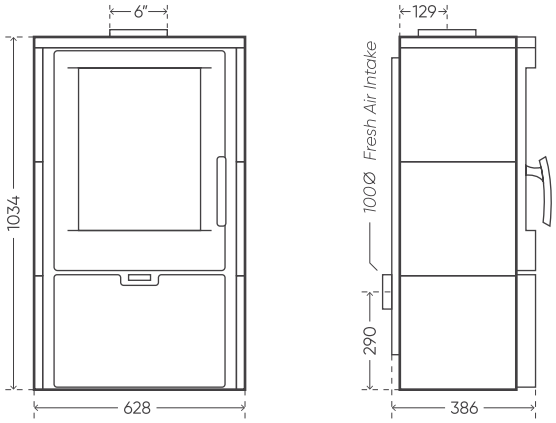

- 33cm Logs
- Natural Soapstone Heat Bank
- Easy to remove ash tray
- Optional external air intake

Heating Capacity	Up to 240m²
Efficiency	Aus 73% / EU 82%
Emissions	1.5g/kg
Wood Usage	1.9kg/hr
Weight	194kg
H/W/D	1034/628/386

Heat Bank	Soapstone
Ember Retention	7hr+ (Soapstone Thermal Mass)
Min Flue Length	**4m** *From Spigot*
Colour	

National Certificate of Compliance No; AHHA22-021
